About: Enthusiastic and detail-oriented individual with strong problem-solving skills and a passion for web development. Experienced in building responsive and efficient web applications. Eager to apply analytical thinking to real-world challenges. Committed to continuous learning and innovation in technology.

PERSONAL PROJECTS

Grocera – Developed a mobile application for smart grocery management that tracks pantry inventory, monitors expiry dates, and generates shopping lists. Designed to reduce food waste and simplify household grocery planning.

Code to Text – Created a small LLM that converts uploaded code in its chatbox into text explanations.
